

Good news! The Town of Vernier has decided to increase family cheque amounts from CHF 100 to CHF 150 to help pay for one, two or three recreational activities for your child (sport, dance, language classes, day camps, etc.).

Family cheques: How do they work?

What are they?

You will receive CHF 150.00 to help you pay for one, two or three recreational activities for your child (sport, dance, language classes, community centre activities, etc.). Every child will receive three CHF 50.00 family cheques.

Who will receive the family cheques?

Every child living in Vernier and who is enrolled in primary school or orientation cycle.

When will I receive the family cheques?

You will receive the family cheques by post:

- during the month of August if your child is enrolled in a public school.
- during the month of January if your child is enrolled in a private school.

You can use your family cheques until 17 August 2025.

How do I use the family cheques?

- Give the family cheques to the person in charge of the recreational activity. They will validate them by scanning the QR code.
- Each family cheque is unique and cannot be transferred to another child within the family. It is valid when presented alongside an identity document.

You can use

- three cheques together to pay for one single activity;
- one cheque to pay for one activity and two other cheques to pay for a second, different activity;
- three cheques to pay for three different activities.

Where can family cheques be used?

- Family cheques can be used in Vernier for a recreational activity.
- If the recreational activity for your child does not exist in Vernier, ask the person in charge of the activity if the family cheques are valid for the activity.
- Family cheques cannot be used to pay for GIAP [Inter-commune Group for After-school Activities] after-school care.

How can I find a recreational activity for my child?

- In the Youth Activities brochure: www.vernier.ch/activitesjeunesse
- On the family cheques website
